## Pediatric SART Exams

Sexual Assault Response Team

Expert and Timely Evaluations  
for Children and Youth

Information Line: (408) 885-6460

 **SANTA CLARA  
VALLEY MEDICAL CENTER**  
Hospital & Clinics  
[scvmc.org](http://scvmc.org)

The Center for Child Protection provides compassionate and expert medical evaluations for children and youth who may have been sexually abused or assaulted. Law enforcement, social services, medical professionals, parents and patients may request the SART evaluation and exam.

Evaluations are appropriate for the child's age and are not painful. The examination is not an internal exam (intra-vaginal or anal).

A trained advocate is present to provide timely and ongoing emotional support, as requested by the patient.

If you need timely advice, or would like to schedule an evaluation, please call us directly at (408) 885-6460.

The Center for Child Protection offers these services 24 hours a day, 7 days a week:

- ◆ Forensic examinations for children younger than 12 years old, less than 5 days after the event, as required by law enforcement.
- ◆ Examinations for children and youth younger than 18 years old, more than 5 days after the event.
- ◆ Emotional support and counseling: We provide information to obtain counseling services without cost to the patient, or the patient's family.

The Center for Child Protection at Santa Clara Valley Medical Center has provided compassionate care for victims of sexual abuse and their families for more than thirty years.

## SPARK Clinic

Supporting, Protecting and Respecting Kids

The Medical Home for  
Children and Youth in Foster Care  
In Santa Clara County

Information Line: (408) 977-4504

 **SANTA CLARA  
VALLEY MEDICAL CENTER**  
Hospital & Clinics

[scvmc.org](http://scvmc.org)

The SPARK Clinic provides comprehensive and compassionate medical care to infants, children, and teens in foster care.

Our staff is trained to care for children who have suffered abuse and neglect with sensitivity and patience. We take the time to understand and find solutions for each child's emotional, behavioral, and medical concerns.

Evaluations and physical exams are appropriate for the child's age and developmental abilities. Results are confidential.
